To whom it may concern,

I have been a Sannyasin for four years now, although I have not personally been in Bagwan's presence I feel I have been in his presence and his grace through his love and through my contact with his sannyasins and his works, his books tapes and videos

As a religious teacher and Master his words and his silences are both music and a joy to me for which I am utterly grateful.

Bagwan's silent phase has not lessened his grace I feel but has increased it

love
