Gränichen, 30.7.83

To whom it may concern:

I love Rajneesh Meditation Centers and the people living in them because they are particularly caring and sensitive.

The trainings, meditations, massages and ideas I got there are very individual, because these people put love at the first place and are very loving.

The atmosphere in the centers I have visited up to now is always very positive and creative.

I would like that much more people could experience the joy of such a surrounding.

Love

Madeleine Zubler
