To whom it may concern:

Since few months I intent "Akshaya" Rajneesh Meditation Center in Lugano, and I have a very nice feeling for the people who are living here.

The disciples of the spiritual Master Bhagwan Shree Rajneesh communicate in a very simple loving way; through their joyful and silent beings, their clean and serene eyes, being always totally present.

More than one year ago I started reading Bhagwan's books: His words made a real breakthrough inside me. Bhagwan gave me a real strength based on awareness and love; I could find a new trust in myself and in life and respect for the others.

I thank Bhagwan for giving me the chance to find fresh energy and love through His books, His meditations, His presence.
