

My name is Sivanji Dhanu MishliKara (legal name
Tosi Maurizio)

I work like waiter in a "Zorba the Buddha",
Rajneesh Restaurant. in Italy near Milano

I know the Bhagwan's experience from many
years but in only one year that I am a sannyasin

It is a very important experience for me because
wherever is a Bhagwan's community, in every kind
of work, you can try to live and work with more
awareness and using the work like a meditation

I think this story is a very big opportunity for
many people to understand the importance of disci-
pline and awareness in his life, after many years
of rebellion at all the structure of the society

I think also that U.S.A are the only country
where the sannyasin can make this experience
totally in accord with the government of USA, that
are the more free and open at the new aspect
of

Thank you

Sivan MishliKara
