To whom it makes concern ...

Dear Sir,
the reason why I write this letter is that I want to tell you why I am a Sannyasin and why it is so wonderful for me that Bhagwan is alive - at least I will try to find the words for that inexpressible feeling.

I want to go some years back when I started to get the feeling that all my life was a big search of something I didn't know what it was.

I started to read many books about psychology, philosophy, my teachers in our made sessions and psychological games with me in order to find out something about my inner "I", my inner world - but I still wasn't content; it was too theoretic and I couldn't really practice it.

Then, one day, a friend of mine gave me a book of Bhagwan Shree Rajneesh; I read it and suddenly I felt it - this was it! This wasn't only theory but it was possible to live it! And it still is

Now I feel a deep inner contentment and I am very happy. The search is still there but with Bhagwan I made a big step forward and I still make many little steps everyday.

Bhagwan doesn't help me through words in my day-to-day life but only through his being alive and knowing that he is in good health.

Please, excuse my grammatical mistakes if there are any

Sincerely

Ma Jivan Gub
