

To whom it may concern

During my apprenticeship as a television engineer, I once came to read a book of Bhagwan Shree Rajneesh. This book was so full of wisdom and love that I went to visit the Rajneesh Meditation Centre in Hannover to participate in ~~to~~ meditations.

July 1981 I went to Amsterdam to join the Gyan Purvima Sanyas ~~Celebra~~ Festival ~~to join~~ happening there. Since then my emotional life has changed increasingly; anger and aggression slowly disappeared from my ~~inner being~~ soul. I realize that I become more and more ~~re~~ calm and loving.

Up to now I have not visited Bhagwan yet. Nevertheless I feel a deep loving connection between Him and me. The contact with him exists beyond any communication.

For me Bhagwan is the greatest spiritual master of this time, like it were Jesus, Mohammed, Buddha or Lao Tzu.

At the moment I live in the Manjusha Rajneesh Meditation Center in Braunschweig. Living in this beautiful field I can enjoy

the beauty ~~of~~ of life more and more.
