To Whom It May Concern:

The purpose of this letter is to declare my appreciation for the unique and exceptional contribution Bhagwan Shree Rajneesh has made to the field of philosophy and human behavior. I consider Bhagwan Shree Rajneesh to be a world teacher in this area and his provocative books and talks on the subject of human behavior are rare indeed. His competence in the field of comparative religion, philosophy and behavior are unexcelled in my experience.

I have received my academic degrees from the University of Southern California, the University of California at Los Angeles, and the United States International University in San Diego. I have a doctor of philosophy degree in academic psychology and human behavior. In addition, I am the founder and director of a large and comprehensive health care center which includes physicians and psychologists. I am on the Board of Directors for the Mandala Society, the Association for Holistic Health, the Festival of Nations Foundation and several other non-profit organizations involved in the human potential movement. I've published many articles in trade journals and I have been on network television and on a special B.B.C. documentary. Although I have no formal or on-going involvement with Bhagwan Shree Rajneesh, his impact through his books, tapes, and centers, are very helpful to me and many of our patients. Please call or write if I can be of assistance.

Sincerely,

  
Jason R. Doty, Ph.D.  
Director
