to whom it may concern

I, Louis Lambelet, M.D. past president of the psychiatric Association of Basel-Baselland, of the Freiburg psychoanalytisch Institute, of the Swiss Gruppopsychology Association (Section Psychotherapie), of Will-Europe, of the Basel Psychoanalytic Institute, of the Swiss Psychoanalytic Society (Section for Training) etc. are writing on behalf of Mr. Shri Bhagwan, who is living in Oregon (USA).

I have used some techniques of Bhagwan Shree Rajneesh since 1976 in my practice with good success and he is certainly one of the best experts in the field of meditation. Although I never would give up my spiritual and religious belief in order to become a follower of Bhagwan, I appreciated very much some of his advices and techniques. He is an international recognized authority in his field and has influenced a lot of well known psychotherapist and psychoanalysts in their work and belief. I therefore would highly appreciate if he could stay longer in the USA and get his permission to immigrate definitively.

L. Lambelet
