

TO WHOM IT MAY CONCERN

As you can see by the certificates enclosed I am a social worker and I've been working in several childrens-hospitals for nearly six years now.

In 1981 I had my first contact with Bhagwan Shree Rajneesh. It happened when a good friend and colleague of mine became a Sannyasin, and in the following time I saw her doing her work in a new and surprising me way, acting more open and directly and loving. So I got interested what had caused that change, and soon I started reading the books of Bhagwan. The words I found impressed me very deeply. I began to meditate and in Summer '82 I became a Sannyasin, too.

I want to tell you, that it is my own

experience that Bhagwan has opened my heart and cleared my eyes, and I feel that this inner growing is influencing each part of my life. In my work I can accept each person now as a human being created by god himself and from this state of view I'm able to be more patient and accepting than I've ever been before.

I do not know which facts are worrying you about the person of Bhagwan Shree Rajneesh and his residence permit in the U.S.A. From my point of view I cannot see any reason you may have to fear, on the contrary I am sure that once you will be proud to give home to such a great spiritual leader.

Just some days ago I returned home from my visit in Oregon, where I

joint the Second World Celebration with
my Master Bhagwan.

I feel great gratitude that a place like
Rajneeshpuram is possible to exist, and
I want to ask you instantly to give
your permission to Bhagwan's residence
permit, so that his work of love and
peace will grow and continue.

I thank you!
