To Whom It May Concern

I am a Geography graduate of London University and completed my degree course in 1976. In addition to this I have a post graduate diploma in Land Surveying from London University which I gained in 1977. I am a Fellow of The Royal Geographic Society and a Probationary Member of The Royal Institute of Chartered Surveyors. Publications include "Back Door to West Africa" in the Geographical Magazine. I am also a main shareholder in Manta Ltd., a company specialising in offshore survey work.

I first came across Bhagwan Shree Rajneesh whilst travelling in India in 1979. Since then I have come to know more of Bhagwan Shree Rajneesh through his books, tapes, and centres throughout the world.

Whilst visiting Rajneeshpuram City I have seen an urban development of exceptionally high standard in terms of urban planning and land use. The inspiration of Bhagwan Shree Rajneesh is apparent in all these areas. As a Geography graduate with world wide travel experience, I can state that the City of Rajneeshpuram is one of the best planned developments that I have come across.

Whilst working offshore as a hydrographic surveyor in oil fields all round the world I have found that the meditation techniques and group therapy methods developed by Bhagwan Shree Rajneesh have been of great use to me. They have helped me withstand the problems associated with isolation and an all male working environment, encountered whilst working onboard oil rigs.

Yours Faithfully,

*S.A. Reynolds*
