

Amre Yoga Chhatra

P.O. F. No 10

Rajneeshpuram

OR. 97741

To Whom it may concern,
I have been a samiyas of Bhagwan Shree Rajneesh for over twelve years, first in Bombay then Poona and now at Rajneeshpuram. Though twelve years have gone by every day a new experience and a new revelation to the wonder of this mystical master who he me open unending doors to my inner a true self, unending doors to the beauty & love. I used to live in New York as a social woman married to a very wealthy shipping family with a very prominent political name prominent not only in Greek politics but world wide also. But I tell you psychologically it was a dead end. Being of Greek background I was always interested in philosophy and the mystery of oneself. So I read a lot and finally came to be of and became a disciple of Bhagwan Rajneesh. When he came to the United States and was finally convinced to re main with us in Rajneeshpuram, I was overjoyed thinking that this count with its vast interests in all field

psychology, art, science, poetry, religion
and philosophy would welcome such
a genius such an exceptional
teacher. He has truly the ability to
uplift human consciousness.

If you allow him to remain in
the United States your contribution
to this country will be immeasur-
able. Humanity will be forever
grateful.

Love

TO WHOM IT MAY CONCERN

I have been a sannyasin of Bhagwan Shree Rajneesh for over twelve years, first in Bombay then Poona and now at Rajneeshpuram.

Though twelve years have gone by, every day is a new experience and a new revelation to the wonder of this mystical master who helps me open unending doors to my inner and true self, unending doors to the beauty of love. I used to live in New York as a society woman, married to a very wealthy shipping family with a very prominent political name, prominent not only in Greek politics but worldwide also. But I tell you, psycologically it was a dead end. Being of Greek background I was always interested in philosophy and the mystery of oneself. So I read a lot and finally came to know of and become a disciple of Bhagwan Shree Rajneesh.

When He came to the United States and was finally convinced to remain with us in Rajneeshpuram, I was overjoyed, thinking that this country with its vast interests in all fields, psycology, art, science, poetry, religion and philosophy would welcome such a genius such an exceptional teacher. He has truly the ability to uplift human consciousness.

If you allow him to remain in the United States, your contribution to this country will be immeasurable. Humanity will be forever grateful.

Love
