Nedlands 6009

To Whom it may Concern,  
I am writing this letter on behalf  
of a very remarkable man, namely  
Bhagwan Shree Rajneesh. This man possesses  
the gift of inspiring those who follow his  
teachings (usually called Sanyasins) to live  
happy contented lives themselves and in the  
process help others live better lives also.

I am not a Sanyasin myself, however I  
have been greatly impressed with the essentially  
positive human qualities of most "Orange"  
people I have met. These people have  
got a vitality, a ~~search~~ <sup>vibrancy</sup> ~~quality~~ which  
many, many human beings in today's  
world are looking for. They have a joy  
in living which each one would concede  
is inspired by Bhagwan Shree Rajneesh.

For some time I have been a Social Science,  
History lecturer at the above institution. In more  
recent years I have developed a strong  
interest in promoting Moral Education or  
Human Relationship courses, for which  
there is, I believe a desperate need.  
In very large measure Sanyasins possess already  
these values which enable people to treat  
one another with kindness and consideration.  
And this is the very essence of human

relationships.

Bhagwan Shree Rajneesh it seems to me can pose absolutely no threat to the American people or to the good government of the United States. Rather, the reverse is true! His presence, his sheer inspiration (and even though he has chosen no longer to discourse, that is as strong, I gather, as ever), can only help to improve the quality of life of those American people he and his followers touch.

I would, in conclusion, urge those officials of the U.S. Government who must make the final decision, to give this good and truly remarkable man, permanent residence for such time as he may wish to live in the United States.

Sincerely yours.

Kevin F. Grenfell
