To Whom it may Concern

I very deeply feel, having seen so many very close friends blossom and grow as peaceful, responsible, loving human beings under Rajneesh's careful hands — we must not let government interfere with our peaceful freedom to follow religious leaders wherever they may be.

I have studied religion and history in many parts of the world as well as graduated in fine arts from UCLA — I strongly believe we, in our democratic nation, must keep striving for our freedoms as well as speaking out as individuals to protect them.

over —

Thank you!
