

15 Hollins Walk
Parkside Rd
Reading.

18th July

To Whom it may concern,

I am a teacher at St. Joseph's Convent School in Reading, a Roman Catholic Independent Grammar School, where I hold the post of Head of Science, but this letter is really about Bhagwan Shri Rajneesh.

As a direct result of his teaching working communities such as Medico Rajneesh in England have been founded. I have visited this place twice and participated in groups there

over about three weeks. For me this was an enormously beneficial experience in finding out more of the truth about myself and the spiritual life.

If truth has any value in our own lives and in our society then this man should be honoured as a teacher with a unique contribution to the lives of us all and I urge you to consider the request that he be allowed to live in the United States.

Yours faithfully,

Judy Bruce.
