106, Waldpromenade  
8035 MUNICH - GAUTING  
West Germany

12/7/83

To whom it may concern

I received my training in clinical psychology at Munich University, holding the degree of Dip. Psych and a doctors degree (Ph.D.) of Munich University  
teaching clinical psychology at Middlesex Medical School, London in 69 and 70  
trained in bioenergetics, gestalt, hypnotherapy and neuro-linguistic-programming  
teaching psychotherapy at Munich University from 71 to leading a research dept. there investigating into causes and cures of reactive depression  
currently I am having a private practice as a hypnotherapist in Munich and run trainings for the helping profession in Europe

I came to know about Bhagwan Shree Rajneesh in 76 through some of my colleagues. He has not only inspired myself but brought about a complete change in the depth of my therapeutic work. Besides being a spiritual leader I consider Bhagwan Rajneesh the most outstanding person in the field of therapy today.

He gave me a living example of what psychic health can be. Currently I'm using many of his tapes

and meditation techniques in my work to the benefit of my clients.

Moreover I can watch the same flourishing - due to the influence of Bhagwan Rajneesh - in the work of many therapists all over Europe who I know personally.

Dr. G. Bayer

My publications are:

- 1) "Verhaltensdiagnose und- beobachtung" in:  
Handbuch der Verhaltenstherapie,  
Kindler, Munich 1974
