To whom it may concerne.

1. The Lotos Edition is now 3 years old.
1980 I published: Mit Wurzeln und mit Flügeln, a german translation of Bhagwan Shree Rajneesh's: Roots and Wings, part one; one year later: Die Schuhe auf dem Kopf, part two, and recently I published my third Bhagwan book: Die Alchemie der Verwandlung (english: The True Sage). From "Mit Wurzeln und mit Flügeln" meanwhile I did the second edition.
2. In Germany there is great hungry for books like those writte by Bhagwan Shree Raineesh. Particularly for the last: Alchemie(The True Sage). I expect a reception above the average, because this book contents the beauty of hassidism the jewish mystic. As a german I have the good fatune to publish this book not only for seekers (sannyasins), but for my jewish fellow-citizens. This book is a gift for all men, who takes care for humaness and love.
3. Therefore this work for me is really life-work. The happin to publish such books is growing up, the sales too of cour and I am sure this will be more and more so in future.
