To Whom It May Concern:

As a board certified plastic surgeon and practicing acupuncturist, I have come to see healing as a manifestation of the Spirit. I believe Rajneesh is a superior teacher and leader and a man who is able to lead people to higher levels in the physical, mental, emotional, and spiritual planes so that healing can take place. I believe he should be given a permanent Visa so he can continue his teachings in the United States.

Very truly yours,

Marcy Goldstein, M.D.
