To whom it may concern:

I am a bodyworker/therapist in Los Angeles and am writing in support of Bhagwan Shree Rajneesh's continued residency in the U.S.

I have read and gained knowledge and wisdom from his books. Just the fact that he has over 300 published books, covering in breadth & depth the topics of religion, social science, philosophy & psychology, makes him a person of outstanding & exceptional abilities.

He is the kind of person this country has always welcomed of as an American citizen. I urge that he be welcomed to the U.S.

Sincerely,
Donald Phillips
