To the proper person,

Having heard that the Master Bhagwan Rajneesh is to be driven out of the United States for some reasons that are not respectable of his work on Earth, I am concerned.

I, Raoul Duguay, live in KEBEK, Canada, where liberty of thinking, saying, writing, teaching and moving is one of the greatest in the world.

Well known and loved by my fellow citizens, I think, say, write, sing, teach and move. As an artist, I engraved ten records, wrote nine books, and five pieces of theater, animated at CBC Radio-Canada, hours of broadcasting on philosophy and science of life. I sang love and consciousness thousands of times on stage and television, in KEBEK, in Canada, in France, in Belgium, in England, in Germany and in United States and never have I been told not to do so.

Since I had the opportunity to meet the deep and expanded spirit of BHAGWAN RAJNEESH, my life has been moved to a higher step. The intensity and the density of the teachings of BHAGWAN based essentially on positive thinking and acting, on awareness and on love, help me every day in my thoughts and in my works.

That is why I believe that BHAGWAN RAJNEESH is one of the most outstanding spiritual leader living and teaching life on this planet. His teaching concern the whole Earth as it gives solutions to many of our planetary problems. If you and I are still breathing, it is because some accomplished man like BHAGWAN RAJNEESH, are spreading thoughts of peace, love and consciousness all over the world. If you meet one of his disciples, look into his eyes: light will enlove you. And if you ever see the eyes of BHAGWAN RAJNEESH, you will see the nothingness of everything, stop doing things and sit there, finding your real YOU. Be good to yourself and to all others. Take care of the evolution of men, take care of BHAGWAN RAJNEESH. Have a sunny day inside. Be and radiate...
