TO WHOM IT MAY CONCERN

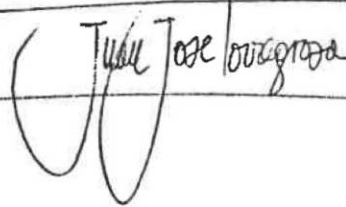

I, Juan José Torregrosa, graduated on Architecture by the University of Madrid, have got to know Bhagw Shree Rajneesh through his books, tapes and videos which I find very creative, wise and encouraging to whatsoever means a better living.

Particulary on his inspiration in the planning of the City of Rajneeshpuram in which I find the visic and level of Utopia architects becoming reality. I could say that the only precedent of it could be Frank Lloyd Wright's work.

The architects of the City of Rajneeshpuram working on the inspiration of his Master are contributing to the world a new model of city, in harmony nature and man's work. Their respect and care of the envi ronment is extraordinary.

For all this I support Bhagwan Shree Rajneesh as a man of exceptional ability in both Science and Art.
