

Dr. Wilfried BACH
Rummelhardtgasse 1/5
A-1090 Wien
Austria

Wien, the 19th of July

To whom it may concern!

I am Dr. Wilfried Bach from Vienna, Austria, 38 years old.
I made my law studies at the University of Vienna and ended
with the doctorate in law in 1967. I entered the Austrian
National Bank, where I started a career. From 1969 till
1971 I studied at the Institute for Advanced Studies in L.
and made there a postgraduate diploma in the field of
econometrics. I stayed in the Central bank interrupted by
4 month course of money analysis with the Inter-
national Monetary Fund in Washington D.C.

Some years ago I heard and read from and about
Bhagwan Shree Rajneesh. I got very interested and
invested a lot of time trying to understand his
teachings and the great meaning of this man.
He gave a whole new background for the life. I can
say he developed a new philosophy and out of this a new

religion. He is the spiritual leader of this religion and got many disciples and maybe even more (sujata) friends all over the world. A part of the disciples lives in their own communes.

The influence of this spiritual leader in the daily life of each person who come into contact with him is deep and also very positive. After this you can work harder without getting caught in the routine stress of everyday life and beside you enjoy an enriched time after work.

Bhagwan Shree Rajneesh is very well known in Austria and all over the world.

D. K. Rajneesh
