To whom it may concern

Dear Sir

I am a Surveyor and worked for many years in this profession in Germany and South Africa as well as South West Africa which is now called Namibia. In the last years I gained more and more knowledge in building-construction and renovation. Together with some friends I bought 1975 a big old House in Berlin and renovated it. To keep the money flowing I am running a taxi-business with 2 taxis.

While keeping busy with all this activities I remained a seeker, looking for a deeper contentment. The normal evening entertainments, the adventure-holidays, the political parties and established religions, they all didn't give satisfaction.

In 1980 for the first time I practiced dynamic meditation and read Bhagwan's publications. Bhagwan's approach to religion and meditations-technic, his

teaching to live life totally, fascinated me. I became a sannyasin.

Now while I am visiting Rajneeshpuram for the second time I see this fast growing community. So much has been done in such a short time!

Bhagwan's teachings become reality.

It is a beautiful experiment not only for the people who live here but for everybody. Here is a dynamic development, an economical boom and people who live in harmony with themselves and with the nature.

The way this community lives and grows is proof enough for the extraordinary abilities of

Bhagwan Shree Rajneesh because it lives from his spirit

The presence of Bhagwan is necessary to keep the energie clear and high. His silence points the way from where his and our energie comes.

Sincerely yours

W. R. J.
