To whom it may concern :

It has come to my attention that there is some doubt whether to grant Bhagwan Shree Rajneesh the permission to stay in the United States. I would like you very much to consider the following thoughts upon this matter:

Bhagwan Shree Rajneesh is probably the most remarkable and outstanding man walking on this earth right now. It is so rare and precious to have this exceptional being among us, that we should not miss the chance of being with Him. The United States of America, the country where He happens to be now, is honored and blessed by His presence.

I have gone through many years of school and university-studies, including degrees in English and History of Oxford University, England, and Psychology, Sociology, English and Arts of Frankfurt University, West-Germany.

Only when I came across books by Bhagwan Shree Rajneesh I began to feel that there is some truth in life which I could not trace in any of my studies. I went to Poona, India, to meet Him and since then my life took a completely different course. For the first time I felt really being alive. The words which he was communicating to us then, were not merely words as the words of my professors had been a dead teaching. His words became more and more my own experience and life.

Especially now, that He has entered the phase of silence, which means communicating to us no longer through words, but simply through the Love that is radiating from Him, His presence is becoming stronger and stronger in my life.

It is absolutely amazing how this change that happened to me through being with Bhagwan is not only effecting my personal life but also expanding into my profession as a school-teacher, my relationship with my family, friends etc.

Preceding the months which I spent here for my summer-vacation, I had to deal with a group of so-called "difficult children" who had problems to integrate with school and their families. My approach towards them was very much guided by Bhagwan, and I could see and feel how these children opened up increasingly. At the end of the term the headmaster of the school was amazed about the progress these children were making now. Somehow he sensed that I'm doing my work through Bhagwan's inspiration, he began to read books by Him and it looks as though soon he will also become a disciple of Bhagwan.

Thank you very much for your attention

Sincerely

Ka Dhanu Prema
