To Whom It May Concern,

Recently I have had the opportunity to visit Rajneeshpuram for the second Annual World Celebration and wish to convey to you the depth of the experience, the utter beauty and silence and inner peace felt while sitting at satsang in silence with Bhagwan Shree Rajneesh and thousands of his disciples. He has often said that religious experience cannot be expressed in words - so let me just say that this recent experience has been the peak of years of personal searching for me. It surpasses anything I had ever imagined to be possible.

I have been working for eight years in my profession of High School teaching, for which I had a Bachelor of Applied Science (Biology) degree, and have always been aware that children learn more readily through active participation and direct experience of the subject being taught. The presence of Bhagwan Shree Rajneesh in this country gives us all the rare opportunity of experiencing and sharing in the inner silence

and peace that he carries with him and offers as a gift to those fortunate enough to be in his presence.

It is an amazing opportunity for us in America to have an enlightened master in our midst and one that I would not like to miss.

Yours sincerely,

Ma Pim Bela
