To whom it may concern:

When I was 16 years old, I started to work as a social worker with children. My experience was that many of them took drugs and drank alcohol in their early lives. The reason was easy to see, love, joy and creativity was missing in their lives and I find out in my own life too. The result was, that I tried to find a new way of living. All my experience felt, till I met this incredible man Bhagwan Shree Rajneesh. Through his books and discourses he opened up a new way of understanding science and religion to me. I recognized him as a man of famous abilities and an enlightened master. Since I am working and living in one of his communities, his teaching became a living experience. Love and joy is realized through his presence.

During my visit in Rajneeshpuram this summer I notice that nowhere else people are working in living their life so joyful and loving.

Everything that is happening is only possible through his love, his presence and his silence

Sincerely yours

Susann Otto
