To whom it may concern:

As I have experienced a new dimension of life since I have spent some time in Rajneeshpuram and in the silent presence of Bhagwan. Three Rajneesh I would like to tell you about and share with you.

I have been working in Children's Center and Kindergarten for several years before I start to change my carpentry hobby work into my new profession. As an interior designer I had the chance of seeing many different people; places and doing very interesting work. Even so I was missing something important to totally fulfill me and give me real satisfaction. Being interested in many different religions and spiritual movements I came across a book of Bhagwan Three Rajneesh which really shook me up. I read a few more of his books and decided to visit his place and see his man and his work.

In December I come for the first time to Rajneeshpuram and was amazed of the work and the beauty that has been done there. Watching his people working so hard for no salary and enjoying it I could feel that there is another force behind them which seemed to be overwhelming.

Then, once I had the opportunity to sit in the

silent presence of Bhagwan Shree Rajneesh I
experienced that I haven't been able to experience
by reading various different religious books.
For the first time I was able to feel what
all kind of religions and scriptures are here
to point out. A happiness and contentment
and love which I could carry with me in my
private life and into my work; even more
the division between my private life and work
seemed to disappear. Some kind of fresh and
new creativity is growing more and more making
my work and relating more alive and spontaneous
and artistic.

When I came back to Rajneeshpuram to the summer
festival this year I hardly couldn't believe how much
had happened here and I realized what more
things are possible to be done in the presence
of Bhagwan Shree Rajneesh.

What usually is called work is worship in
Rajneeshpuram and what one can read in
religious books is happening and being
lived right now in this city.

Leaving this place with the hope
of helping to create more of
this islands all over the world

your's sincerely

Stefan Saunder
