To Whom It May Concern ,

Americans have always cherished their basic freedoms.

Especially, freedom to pursue a lifestyle in harmony with God and other human beings. The wisdom of our forefathers and strength of our country, as set up in the Constitution, has provided the greatest living standard.

Two of the cornerstones of our living standard, has and continues to be, freedom to choose our type of work and preference of religion.

I have held many responsible positions in management and ownership of several companies. All of my past achievements do not compare with my present situation.

Bhagwan Shree Rajneesh has brought together the most fulfilling experience of work and religion in the freedoms of America. His presence provides a freedom to experience love and prayer to new dimensions.

Bhagwan Shree Rajneesh is a channel and a catalyst for living an unique religious experience. His being here allows me to learn more about life and religion through personal growth experiences.

EXHIBIT "A-1677"

America is the world leader in providing and protecting human freedoms and rights. Now is the time to uphold that worthy title and duty by allowing Bhagwan Shree Rajneesh to stay in our country. Support his acceptance in the United States for the material, artistic, and spiritual benefits he brings.

With love,

Swami Satya Pradip
