To Whom it may concern,
I would like
to express my sincere judgement that Bagwan
Shree Rajneesh is a person of exceptional
ability as a thinker, a Teacher and a religious
leader.

I am a professor in The State University
of New York, Empire State College. I Teach
English and Humanities. As one who cares
that philosophy and sensitivity to language
flourish I value Rajneesh's books and tape
recordings highly. Books like The Tao: The
Three Treasures and tapes such as Discourse
of Bagwan Shree Rajneesh offer students of
literature and philosophy a unique
integration of the best in eastern verbal art
and philosophy, in a way that western minds
and hearts can grasp. I read and listen to
Rajneesh and direct students to his wisdom.
One does not have to be a Sanyasin to perceive
and gain from his greatness.
