To whom it may concern

I studied catholic theology and was always very busy to look after other spiritual movements, because I didn't believe that there is only one life to live. About two years ago I got the first time in touch with Bhagwan Shree Rajneesh and it happened now a really great change in my life because this man touched my heart and I felt deep in love with him. He never spoke a word to me, he was in silence and nevertheless I felt a deep and lively communication between our hearts. I took saunyas in November 1981, it was a beautiful day. The first time I saw him was during the festival in summer 1982. It was just an explosion of my heart, when I saw him. I never felt so alive and full of love. It was the first time I really understand what religion is, something totally alive, beautiful, here and now. This year I came again to celebrate and to live in his silent presence. I am so happy and thankful to be a disciple of such a beautiful master who has really transformed my whole life just with his permanent silent presence

Sincerely
