To whom it may concern

After a vocational training as a goldsmith I got into a formation as a teacher. Further on I did a special training to become an educator for social handicapped children. In this job I have been working for 13 Years. 5 years ago I took courses of Paramahansa Yogananda. About in this time I heard the first time of Bhagwan. It was through my brother I heard of Bhagwan Shree Rajneesh. I read a book of Him and at the very moment I was very affected of His language and the beauty of His person.

Up to now there was no occasion for me to see Bhagwan physically - neither in Poona nor in the USA. From the people around Him and from the communities I have come to know I feel very strong this kind of Life energy I like so much. In my opinion the way of living and working together as it is realised now in Rajneeshpuram or in smaller Communes in Europe is the most persuaded possibility of try-out a new consciousness and a new understanding of our world - and the problems of it.

Sincerely yours
