To whom it may concern:

I am a teacher at a Secondary School in Berlin since 12 years. That means I have to deal with young people who are socially and spiritually lost, who don't have any aims and ideals in life and who therefore become very destructive, hateful.

I was about to quit my job because I didn't feel able to pass on other values of life than geography and German language. But I knew that couldn't be all.

When I met Bhagwan Shree Rajneesh my life and attitude towards life was changed totally. His teaching of acceptance and respect of all living beings opened a new dimension in my work. I started to bring his meditation into my work and realized a beautiful change with my students, becoming more peaceful and softer in their behaviour.

It's so important for the Western society to have a man like Bhagwan Shree Rajneesh to teach a way out of boredom, destruction and misery that many people in the industrialised parts of the world are infected with.

Therefore I respectfully ask you to make it possible for him to stay in the U.S.A. It will be an immense benefit for the human society.
