Rajneeshpuram
July 28 1983

To whom it may concern.

Being very concerned about my master
Bhagwan Shree Rajneesh's visa and his possibility
to stay in this country, I would like to explain
how he has influenced my life.

I have been working with social de-
stabilized children from 1969 to now, employed
by the Akademik hospital of Uppsala Sweden
I have been studying Pedagogics Psychology
and Drama at the University of Uppsala
Sweden.

I was not satisfied with my work
with the children so I continued another
special course in Pedagogics and the
teacher introduced me to Bhagwan Shree
Rajneesh. After this course I wanted to
go and see him in Poona and I became
his disciple there in 1981.

Since then my work with the children
and their parents has completely change.

Bhagwan Shree Rajneesh talks about
the importance of freedom of man -
he says that freedom comes before love -
has completely turned my approach to
life upside down.

I am now visiting Rajneeshpuram
and being able to see him every day while
being here. I feel very happy. No words
are needed to stay in contact with him.

Bhagwan Shree Rajneesh's presence in
the United States is an honour for this
country of freedom!

Yours sincerely
Ma Chetan Anand
