TO WHOM IT MAY CONCERN

As a disciple of Bhagwan Shree Rajneesh, I am happy to write something about my experience as a sannyasin.

I never felt so peaceful, so happy inside, as during the time that Bhagwan Shree Rajneesh became my master.

It is difficult to describe exactly why, meeting my master as he drives by, feeling his loving energy during satsang a fragrance of deep love and understanding showers on me. A deep inner contentment with myself and everything surrounding me fills my heart. His silence and peacefulness giving me more than every word, every book ever could do, giving me peace and strength inside.

I am happy that in this beautiful country it is possible for my master to stay, America, the country with a worldwide tradition of religious freedom. With all my heart I hope that my master will have the opportunity to stay in America and that by his presence and guidance we can build altogether a peaceful and new way of living in harmony with each other and nature.

I trust in America in welcoming this living loving master and I am grateful I could visit him in this beautiful country.

Yours faithfully,

Ma Veet Meera a.k.a.
P.T. Schimmel
