CHILE

Santiago, July 21, 1983

To whom it may concern:

I hereby certify that BHAGWAN SHREE RAJNEESH has demonstrated internationally an outstanding performance and exceptional ability as a religious teacher and spiritual leader.

I am a psychologist graduated from the "Universidad de Chile" and presently am working in private practice of psychotherapy, both individually and in groups.

I was introduced in 1977 to Bhagwan through his books and in 1981 I participated in a week-end conducted by Swami Ananda Teertha, one of his followers. Since then I have done work with some of his methods and generally been in touch with his teaching through videos and books.

Although I am not a sannyasin, and do not intend to become one, I greatly appreciate Bhagwan's contribution to contemporary culture and spirituality. Indeed, his approach has been of creative and trascendental impact in psychotherapy, and his voice a resounding one in today's critical scene.

Gonzalo Pérez B.
