

Beloveds.

I have been involved and interested in what Bhogwan Shree Rajneesh has spoken and written for four years.

Then after his communication came into silence, I became one of his disciples 2 years ago.

To me this is much stronger & spiritual, more of a harmonious oneness. He is so simple clear and loving.

What more can one ask for to guide them with awareness and to take responsibility for them selves other than Bhogwan, then the rest just follows. Trust! just true love
