

AFFIDAVIT

I, Kirsten Buhl, being duly sworn do depose and say as follows:

I received an education as a psychologist in Denmark and passed my last examination in the summer of 1981.

I have worked for 4 months at a hospital for neurotics, Montebello, in Gentofte, and worked as a family therapist and received training as a gestalt therapist.

I find personally and professional that the religious teachings of Bhagwan Shree Rajneesh have become the very source of knowledge that I find is applicable to me and for the clients that I will be working with, or meet, in the future, in my profession--clinical psychology.

Throughout my study I have been looking for knowledge that could appeal to me and that I could recognize myself and others through.

Not until I met Bhagwan Shree Rajneesh, through tapes and books, meetings with sannyasins, did I find convincing knowledge; not just great bliss of information in the shape of theories. Bhagwan's teachings are pure knowledge coming through his state of enlightenment.
