To whom It May Concern,

I am a
Songwriter + a singer currently
performing all over Los Angeles. I
am not a follower of Rajneesh +
even disagree with some of
his teachings but I feel I
must support religious freedom
here in America. I know
quite a few of his followers
personally + have found them
to be responsible godfearing
citizens. He should be allowed
to reside in an America
that's government is arming
themselves tooth + nail when
the people of America profess
a desire for peace on the planet.
Sincerely Helen Henderson
