14th July 1983.

The Officer Incharge,
Visa Section,
Immigration Department,
U.S.A.

Dear Sir,

VISA FOR MR. BHAGWAN

I am currently working in Management Services mainly dealing with property management. I started on this line soon after I graduated from the United States International University in San Diego, where I was taking a degree course in Business Administration upto June 1980.

I am also Secretary of various church Youth Groups mainly of Christian faith where I help organise drama activities, choirs, and camps for the church youth.

I came to know Bhagwan through friends of mine who have had the privielage of working and training directly from him. Since then I have been reading lots of materials and books written by him. I have also been listening to his tapes and through it all, I have found them to be very beneficial in deepening and better understanding of my Christian faith.

We shall be very happy if your government would consider giving a visa to Bhagwan to enable him set up a center for his teachings in the United States.

Thank you very much.

Yours faithfully,

Wairimu Mahihu (Miss)
