TO WHOM IT MAY CONCERN

Bhagwan Shree Rajneesh is the most exceptional person I have ever met. Rarely does one find anyone who can say so much in so few words. He makes religion relevant and alive in the twentieth century.

I studied Mathematics at Corpus Christi College, Oxford University during the academic years 1970-1973, and was awarded an M.A. degree. Since then I have qualified as a Teacher of Mathematics and I have taught Mathematics in English schools for several years. Since I have been using Bhagwan's meditation techniques I find I am much clearer in the classroom and I find it much easier to communicate abstract Mathematical concepts to children who didn't think they were interested!

Yours,

Malcolm Castle
