To whom it may concern:

I would like to emphasize that I support Shagran's remaining in the U.S.A. In addition to the fact that he has an exceptional personality, he is an internationally known teacher in the fields of psychotherapy, philosophy and religion. Furthermore, his presence in Oregon has led to the development of a new community in an area formerly deserted and barren.

I am of the opinion that the United States of America can

only profit from his presence.
