To whom so ever it may concern.

This is to state some facts about Bhag Shree Rajneesh who at present is in Rajneesh (Oregon) U.S.A.

That I know him since 1964. He is an enlightened one. I have a long acquaintance with him. He is my master, I am his disciple. He is one of India's most widely known and well respected spiritual teachers. He is a Tantric, a Taoist, a Zen Buddhist, a sufi, a yogi, a christ mystic, a Hasid, a tibetian lama, a Jaina Tirthakara, a hindu avatar, a prophet, a poet, a writer, a painter, an exceptionally gifted orator, a voracious reader, a versatile genius, a courageous warrior, a laughing and compassionate saint of this modern age. But still he belongs to no one particular tradition. His teachings are full of Paradoxes. but one who is meditative finds consistency in each of his paradoxical statements.

Although he has always claimed that he is a guru, he has 3,50,000 disciples. "I am not a guru" he says, "but I do not deny your need to be a disciple. My every effort is to awaken the guru within you."

His staying in U.S.A. is a great loss to his disciples in India. but looking at the benefits of mankind ^{as such} we think that he should stay in U.S.A. and spread his message of peace and co-existence; in this disturbed selfist world.
