Rinzai Dept. :

Good day to you, I would like to introduce myself. I am a Special Education Teacher by profession. I enjoy hobbies dealing with nurturing plants and animals, I admire life put to good use in achieving success in mental and physical potential, self assurance, interrelationships, and unselfish sharing and beauty.

I am stating this because I feel that my brother who is a Sannyasa is leading his life in such a manner that he is comfortable with partly because of what Bagwan Shree Rajneesh has stated and exhibited. This man is currently capable of benefiting from Freedom of expression, choice of religion, and Civil Rights not available in many other countries. Like wise people from around the world are also able to enjoy this freedom when they visit Rajneeshpuram

Our country can gain from this man being allowed to stay in this country. Perhaps those involved in this decision can wade through the red tape and extensions of the truth to discover his potential for continued good service here.

Sincerely

Sharon Black-Greene  
Special Education B.S.
