

Rajneeshpuram, Or 97741

TO WHOM IT MAY CONCERN:

I would like to voice my appraisal of a truly valuable asset to humanity - His name is Bhagwan Shree Rajneesh. He is my master and in being so has affected myself, my family and many friends simply by his presence.

Just to know he is around enables me to beautify my every action.

I am a qualified electrician and even my work has taken on a different quality. I am able to understand more about my work because of my clarity of mind. This is also an asset to the industries which employ his disciples and followers.

Why not stop a little while and look without preconceived opinions at a truly great human being, a genius in psychology and in the needs of the human body and mind.

This man should be invited with open arms to the four corners of the globe and indeed the benefits to each country would be invaluable. America is in the very fortunate position of having Bhagwan Shree Rajneesh already living in the country. I hope myself and all American citizens will continue to reap the rewards.

Love,

Swami Anandip
