To whom it may concern,

Since two years I am working as a Therapist in movement education and bodyawareness in Germany. Before, I studied various fields at University as mathematics and physics for three years. After my pre-diploma (Vordiplom) I was teaching in a private school in Paris for a year. Going back to Germany I went to University for two more years to go into Psychology and Philosophy which are still my favoured interests. In this time I came across a lot of interesting personalities as Freud, Reich, Jung by reading their books.

After discovering a book of Bhagwan Shree Rajneesh I felt so deeply attached that I had to visit him as soon as possible. So I went to India to see him. His extraordinary way of teaching immediately showed me (and still does) more than I learned all the years before. I am his disciple since Oct '80.

Sincerely yours

Robert Walter
