TO WHOM IT MAY CONCERN :

Shortly after completing my Bachelor of Arts Degree at New England College, I travelled around the world for seven months. During that time I met Bhagwan Shree Rajneesh. I have been a disciple of Bhagwan for six and a half years. I met him personally in India in 1977. He is the most amazing human being I have ever met in my life. His presence has totally transformed me and helped me to grow so much. He has added a dimension to my life that no other person has touched. I feel that this unique human being is an asset to our country and our community. We as Americans should consider ourselves blessed by his presence among us.

In my work, Bhagwan has brought a new dimension of awareness and energy. Working together with these people a new harmony and love that has totally changed my life has arisen. I am eternally grateful with this.

In a world today that seems to be in constant turmoil between opposite political and religious groups, in our own unconscious way we are calling to one like Bhagwan to rise up among us and speak the truth about the way we are and to show us a path of harmony. As always in history, these geniuses are never appreciated in their day and only after they are gone do we wake up to what they were trying to tell us.

I would hope that in your interest for all humanity and particularly Americans, you will welcome Bhagwan among us.

Yours sincerely,

Swami Prem Anumoda
