TO WHOM IT MAY CONCERN

I am an Italian lawyer, and since 1979 have been a disciple of Bhagwan Shree Rajneesh. I was specialising in Constitutional Law, the fundamental rights of freedom and equality as living principles in human societies.

When I discovered that there was no life in law I met Bhagwan Shree Rajneesh. He stimulated me to go for a search for interior freedom, in fact the only freedom there is.

Bhagwan has given my life meaning and zest. In his silent presence I feel deeply connected with him. Beyond the mind, from the silence of Bhagwan, some glimpses of a totally new vision touched my heart: Bhagwan is my silent master.

He has been talking for seven years, and more, and now he is teaching through silence in a way much more intense than through words.

His presence, here and now, between us is a unique gift of existence. We want to build a community where he can spread his essence all over the planet.
