

TO WHOM IT MAY CONCERN -----

Re: Bhagwan's stay in the United States

The experience I have by being near Bhagwan is that He is a man with exceptional abilities in the community's life.

For instance, through His vision, this community has been able to work and be creative.

Before becoming one of His disciples, I worked as a cook in Switzerland and felt that something was missing. I felt depressed and under stress. By becoming a disciple I have changed and I feel very happy and grateful towards Bhagwan for this.

I will feel grateful if you could give him the possibility of staying in the States.

Sincerely,

Fabio Giollo
