To whom it may concern,

I have been a disciple of Bhagwan Shree Rajneesh since more than five years.

I feel so grateful that I met him, the most outstanding person that I ever met.

He changed my life completely through his teachings, his love, his silence.

He gave me a positive 'attitude' towards life.

when I was a student at the university of Hannover, ~~studying~~ studying education for handicapped and 'retarded' children,

or when I was working as a teacher for handicapped children I was always missing something, what I found with Bhagwan.

Rajneeshpuram is the only city I know, where crime and murder just doesn't exist, where people from all over the world live together without any discriminations in love and acceptance,

where nobody has to be afraid of aggressions, violence and negativity that you have to deal with every where else

it is so beautiful to feel the love that is shared here,

this energy, <sup>but</sup> he creates here  
through a heart to heart connection between  
him and all his disciples  
only through this energy, he makes available  
for everybody who is living with him,  
this place could grow and develop so beautiful  
and so fast.

he shows us new possibilities, qualities  
of life.

This last celebration was such an incredible  
experience for me:

13 000 people from all over the world  
sitting together in silence enjoying Bhagwan's  
presence, feeling this incredible connection  
between all of us, through his love.

it gave me such a peaceful, blissful feeling  
I've never felt so much peace, bliss,  
happiness and love before

I feel really grateful <sup>for</sup> what he is giving  
to me...

yours sincerely,
