

Heerde, 2-8-'83

To whom it may concern.

As a disciple of the enlightend Master Bhagwan Shree Rajneesh I would like to say something about my religious activities and about what it's like being inspired by a living Master.

I am living in a Neo-sannyas commune, the "Stad Rajneesh" in Heerde, Holland.

With 50 sannyassins (disciples) we are creating a community in which we live and work together in an atmosphere of coöperation and love, inspired by the vision of Bhagwan Shree Rajneesh.

One of the things I am involved in, is making music at several religious activities like sannyas-initiations, in which new disciples are initiated and the Satsangs, the silent communions with the Master. Also the Celebrations are beautiful (We celebrate everything!!)

The Second Annual World Celebration 1983, the biggest religious festival, 15,000 participants this year, was a beautiful experience.

The silent moments with Bhagwan cannot be described, the only word for the feeling of the festival is love!

Yours sincerely

Swami Santosh Ananta
