To whom it may concern,

As Bhagwan Shree Rajneesh has not yet permission to stay in the United States I want to write you this letter, to make you understand how important He is for me and for the whole world.

A month ago I visited the Second Annual World Celebration in Rajneeshpuram. The work, which has been done there in the year after my first visit is incredible, and I don't believe that this would be possible, without the presence of a living master.

Before I became one of His followers, I was a political activist, believing that only through revolution, this world could be changed. Thanks to Bhagwan, I know better now. He made it clear for me that the "only" thing which had to be changed was humanity. Humanity has to wake up, and listen more to their feelings, instead of their minds. And of course this change can not be forced. One has to do it himself.

which is the most difficult thing I know,  
But fortunately Bhagwan is there to help me  
moving together with other "sannyasins", working  
together, in the Buddha field, He created, made  
the impossible possible.

And then there is the big festival in August, when  
we can be in His presence for one whole week, and  
after that there is enough energy to do all the  
work which has to be done in the Dutch  
Commune and in the other 23 Meditation Centers  
in Holland. Then even Bookkeeping (which is  
my job) becomes a wonderful adventure.

I never loved somebody so much as I love  
Him, and I want him to be safe and in good  
health on a beautiful place, where freedom is  
still something, which counts. And where else  
could that be than in the USA?

Isn't it wonderful that the only living master  
wants to live in your country?

So in the interest of Religious freedom, please  
give him permission to stay,

C. Simons
